Subject: RE: EPA Request for Information and Documents to Chevron for Harbor Island Superfund Site

Hello Andrea,

EPA is amenable to this extension and so Chevron now has until January 15, 2021 to respond to the information request.

Happy holidays.

Richard

Subject: RE: EPA Request for Information and Documents to Chevron for Harbor Island Superfund Site

Hi Richard – I hope your fall has been going well, pandemic aside. We are making good progress on responding to EPA's 104(e) request, but have had a substantial number of boxes of documents to review. Additionally, Chevron has just completed a corporate reorganization, which has created some delays and challenges in our review. We are nearing the end of our review and then will be able to respond, but we won't be in a position to do so by November 30. Is an extension to respond to the request through January 15, 2021 possible (given the intervening winter holidays)?

We very much appreciate EPA's flexibility to date.

Many thanks and, if you would like to discuss, please feel free to call me at 202.549.2532.

Andrea

Subject: [**EXTERNAL**] RE: EPA Request for Information and Documents to Chevron for Harbor Island Superfund Site

Andrea,

Given the constraints from the pandemic which you explained to me today continue to impact the ability of Chevron employees to retrieve, search and provide responsive records, EPA is willing to grant an additional extension of time to November 30, 2020 for Chevron to respond to EPA.

Respectfully,

Richard

Subject: FW: EPA Request for Information and Documents to Chevron for Harbor Island Superfund Site

Hi Richard:

I am in-house counsel at Chevron and work with Susan Snyder who has been communicating with you about Harbor Island Superfund Site. Do you have time for a very short call today after 3 pm or tomorrow before 10 am or after 12 pm (all times pacific)? We are in the process of trying to responding to EPA's information request, but have had significant difficulties obtaining hard copy documents due to COVID related restrictions and I was hoping to discuss a further extension with you.

Thanks,

Andrea

Subject: [**EXTERNAL**] RE: EPA Request for Information and Documents to Chevron for Harbor Island Superfund Site

Dear Susan Snyder,

The United States Environmental Protection Agency (EPA) is willing to provide Chevron an additional extension of time to respond to the referenced request for information and documents. Chevron is now required to submit a response to the EPA request by no later than Monday, August 31, 2020. All other aspects of the request remain as stated therein.

Respectfully,

Richard

Subject: [**EXTERNAL**] EPA Request for Information and Documents to Chevron for Harbor Island Superfund Site

Dear Susan Snyder,

Thank you for contacting the United States Environmental Protection Agency (EPA) about the request for information and documents that the EPA issued to Chevron U.S.A. Inc. The request pertains to the East Waterway Operable Unit of the Harbor Island Superfund Site and was issued by the EPA pursuant to the Comprehensive Environmental Response, Compensation and Liability Act.

Due to complications related to the COVID-19 pandemic, Chevron U.S.A. Inc. has asked that the EPA provide additional time to respond to the request. The EPA is cognizant of many of the difficulties created by current conditions resulting from the COVID-19 pandemic and is therefore willing to provide additional time to respond to the request for information and documents. Chevron U.S.A. Inc. now has until Friday, July 17, 2020 to provide a response.

All other aspects of the EPA request remain as stated therein.

Thank you,

Richard Mednick
